

Bill Nighbert
Acting Secretary of Transportation

Commonwealth of Kentucky
Transportation Cabinet
Frankfort, Kentucky 40622

Ernie Fletcher
Governor

October 10, 2005

Dear concerned citizen,

The Kentucky Department of Highways is preparing to hold its final public hearing for the Old Henry – Crestwood Connector. The hearing is scheduled for **November 17, 2005 from 6:00 to 8:00 pm at the Oldham County Arts Center**, 7105 Floydsburg Road, Crestwood. A court reporter will be present to take your comments, or you can send in your comments on forms that will be available at the hearing.

As reported in the July 2004 newsletter, Alternate 45-B in Jefferson County and Alternate 6 in Oldham County, were selected to be the preferred alternates on the basis of least impacts, best opportunities for access management, and fulfillment of the purpose and need. These alternates were recommended in the draft Environmental Assessment (EA) which has been reviewed by the KYTC Division of Environmental Analysis and the Federal Highway Administration. Comments from these two agencies have been incorporated into the EA, and we are now ready to present the preferred alignments to the public for comment.

This November 17th hearing will complete the decision making process and allow the project to advance to the final design phase.

Sincerely,

Charles S. Berger, P.E.
Project Manager
Kentucky Transportation Cabinet
District 5
